- 23 Zinc plated roller bracket to suit 1, 4, and 21
- 24 Pressed steel clamp 34mm
- 25 Sandhopper wheel
- 26 Wheelbarrow wheel

## APPLICATION

### Boat Rollers

We have streamlined our range of Boat Rollers to provide a wide choice for the boat trailer manufacturer. Some items have changed slightly in style and size but all are made to a DIN standard. They are made from polyurethane polyether which is very effective in marine conditions and does not leave black marks on hulls. Peak can also supply a selection of brackets to suit some of the rollers. Boat Rollers of other specifications and colours may be available to volume purchasers. *Please ask our Factory shop for assistance.*

### Launching Trolley Wheels

Peak Trailers can supply two types of Launching trolley or Material handling wheels. The wheelbarrow type has a plastic wheel with a 400 x 8 2Ply tyre with a ribbed pattern. The sandhopper type has also a plastic wheel, but with a solid rubber tyre, which is 3" wide and makes it ideal for sandy or muddy terrain.

Put Peak into Practice
