

Trailer Body Fittings

Data Sheet Issue 00/01

APPLICATION

Peak Trailers offer a variety of Trailer Body Fittings which are mainly supplied self coloured. Please see overleaf for product codes.

Bolts, chains and hooks

For fastening and retaining panels, sides and doors, and to provide attachment for ropes and straps. The Factory shop stock a large selection of light duty tie down hooks and button cleats with either a metal or plastic finish.

Pins and hinges

Various fittings of a bolt or weld on type are offered together with a combination of eye plates and hinges to suit a wide range of applications.

Tailgate fittings

This Group is made up of different types of fasteners and spring sets for trailer ramps. There are also fittings for tipper tailboards to pivot top and bottom and secure closed. In addition the Factory shop stock a comprehensive selection of light duty tie down hooks and bottom cleats with an either metal or plastic finish.

Corner posts and sockets

These fittings are used to secure side and front/rear panels of trailers. The posts can be removed from the socket to enable the customer to convert from a dropside to a flatbed trailer by taking the sideboards out.
